

Information on SCARD and CADD workshops

SCARD deliver workshops aimed at groups and individuals.

The cost is negotiated after discussion with user as to their requirements

All our Facilitators are CRB checked at enhanced level

SCARD Impact Workshops for young people

SCARD Workshops fitting within the PSHE Education Curriculum framework*

Workshops are individually designed for each audience.

We can focus on different aspects of road casualties/ car crime/car theft, at the same time also enforcing social responsibility. We can cover any road safety message within a workshop. Content will be decided by the School/ User and SCARD

We work with Schools (years 7 through to 11), 6th form's, Colleges, Youth Clubs, After School Clubs, Pupil Referral Units, Secure Units, and Youth Offending teams. We also work with the Prison Service.

Our workshops are well received by participants and tutors and are without doubt very thought provoking. Feedback confirms that there is a desperate need for this important service.

How we work: After Introduction and caution of the emotional content.

1. Show the SCARD DVD/"SCARRED FOR LIFE"
2. Personal story from a victim coping with the effects that road death or injury has had on themselves and their families.
3. Questions/ Feedback/ comments/ observations and an opportunity to look at sentencing.

Following the Workshop, Safe Driver Contracts/ Evaluation Sheets can be given out if agreed by supervisors.

To order a workshop for your school or organisation, please Contact us on 08451235541/43

For a printable leaflet about SCARD workshops, please visit our website

The Delivery and Resources Needed:-

- Projector/Screen /Computer, or other facility to show DVD or PowerPoint presentation
- Airy comfortable room with seating for all attending participants, staff and observers.

There is no restriction on the number of attendees. Most workshops consist of 20 to 30 students with at least one accompanying teacher.

We can also deliver workshops to a full school assembly.

Students with emotional/ behavioural or ADHD may benefit from smaller workshops of between 6 to 12 students.

Please note: The delivery time required for this workshop is approximately 50 minutes, as students must be given the opportunity to “de-brief” on the information discussed. We would consider it useful if the user could be slightly flexible on timing. As we work within strict time limits, punctuality is vital for a prompt start.

We respectfully request workshops are not interrupted whilst in progress as it is important to maintain the flow and any disruption. For example, people coming in or out can be “off putting” for attendees, but also for victims who may be relating emotional details and feelings.

Our workshops provide funding for all the other services we offer and donations can be negotiable by “workshop” or by the “day”.

*PSHE education is a planned, developmental programme of learning designed to help learners develop the knowledge, understanding and skills they need to manage their lives, now and in the future. It deals with real life issues which affect children and young people, their families and their communities, and engages with the social and economic realities of their lives, experiences and attitudes

Anti-drink-drive Workshops

SCARD run anti-drink-drive workshops in collaboration with our sister organisation CADD (The Campaign against Drinking & Driving). As many of our members are victims of drunken and irresponsible drivers, we know first-hand the dangers of driving when unfit due to an excess of drink or drugs.

Our hard-hitting workshops are very popular with many organisations where drink driving and other unsafe driving behaviour is a particular problem. Such organisations include, but are not limited to, the Armed Forces, Transport companies such as Haulage, Taxi and Bus companies, Insurance Firms and other companies with Fleet Vehicles.

What makes our workshops so effective is that all of our experienced facilitators have been bereaved due to drink and/or drug drivers - this fact tends to focus the minds of the participants and emphasizes the dangers involved.

The Drink Drive workshops will be tailored to meet needs, but tend to follow a similar format to below:-

A one-hour interactive multimedia presentation involving the facilitator and the audience. The audience are given the opportunity to express opinions, speak about pre conceived ideas and give their own perception of drink/ drug driving, unit content, and the law

Followed by a 15-minute comfort break

Followed by a one-hour personal presentation by a victim of Drunk Driving

Followed by the opportunity for discussion/questions/answers

This complete workshop will take about 2 hours

At the end of the workshop, participants are invited to sign one of our safe-driver contracts - for more details on this unique initiative, please visit our website

We welcome groups of any size - our facilitators can visit you at your site anywhere in the United Kingdom, or we can hold the workshop in our conference room at our offices in Mirfield, West Yorkshire, depending on your preference.

If you would be interested in having a workshop from us for your organisation, please contact us on 08451235541/43 to discuss availability, your specific needs and costing.
